## Professional Summary

---

A highly skilled and motivated software developer with 2 years of experience in developing scalable, robust, and user-centric applications using JavaScript, Python, React, Node.js. Adept at problem-solving and working in both collaborative and independent environments. Proven ability to deliver high-quality software solutions and optimize performance in a variety of projects, including web, mobile, and backend applications. Passionate about learning new technologies and refining coding practices to stay ahead in the ever-evolving tech landscape.

## Education

---

### B.Sc (Hons) – Economics, 2018

University of Lagos, Lagos city, Lagos state.

## Core Competence

---

- **Programming Languages:** Proficiency in JavaScript
- **Front-End Development:** Expertise in HTML, CSS, JavaScript, React, Next.js, and other front-end frameworks.
- **Back-End Development:** Knowledge of Node.js, Express, databases like MongoDB, MySQL, and building RESTful APIs.
- **Version Control:** Proficiency with Git and GitHub for code management and collaboration.
- **Responsive Design:** Ability to create mobile-first, responsive web designs using CSS, Bootstrap, and media queries.
- **Problem-Solving:** Strong analytical and debugging skills.
- **Agile Methodologies:** Experience with Agile development practices, including SCRUM
- **Database Management:** Skills in database design, SQL, NoSQL, and working with cloud databases.
- **Deployment:** Experience with Netlify, Github Pages
- **Collaboration & Communication:** Working effectively in teams, strong communication, and stakeholder management.

## Work Experience

---

### Software Developer | Freelance

- I developed and manage the e-commerce website for **Iris Luxuries Hairs**, handling both frontend and backend. The site features a responsive design using **React**, secure payment integration with **Paypal**, and a seamless shopping experience with product listings, a cart, and checkout functionality. I ensure the site runs smoothly by performing regular updates, troubleshooting issues, and adding new features based on user feedback. I also manage SEO efforts to boost visibility and monitor site performance through analytics.

### Frontend Developer, June 2024 – till Date

#### Megadel Africa | Intern

- Developed responsive and user-friendly interfaces for web applications using **React** and **CSS**, which improved user experience.
- Built reusable UI components and optimized for performance, resulting in a 30% decrease in load times across the platform.
- Collaborated with backend developers to ensure seamless integration of **APIs** with the frontend components, adhering to best RESTful practices.

## Technical Skills

---

- **Languages:** JavaScript, TypeScript
- **Frameworks/Libraries:** React, Next.js, Node.js, Express
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Version Control:** Git, GitHub
- **Cloud Platforms:** AWS, Google Cloud, Microsoft Azure
- **Other:** Redux, GraphQL, REST APIs, Scrum

## Projects

---

### Task Management Application

**GitHub:** <https://github.com/Aderibigbe-Ayantayo/FrontEndTaskManagement> ,  
<https://github.com/Aderibigbe-Ayantayo/BackEndTaskManagement>

- Built a full-stack task management application with a **React** frontend and **Node.js** backend using **MongoDB** for database management.
- Implemented user authentication, task creation, and task management features. Used **JWT** for session management and **Redux** for state handling.

## Movie App

**GitHub:** <https://github.com/Aderibigbe-Ayantayo/ReactRouterCheckpoint>

- Developed a dynamic movie listing app using **React**, **Redux**, and **Axios** for API consumption.
- Integrated **React Router** for navigation between movie details and trailer pages, enhancing user experience.

## Weather Forecast Application

**GitHub:** <https://github.com/Aderibigbe-Ayantayo/weatherForecast>

- Created a weather app using **React** and the **Open Weather Map API** to display weather conditions for user-selected locations.
- Implemented search functionality, allowing users to search for current weather and forecasts.

## Certifications

---

- **Certified Software Developer**, GoMyCode – 2024
- **Responsive Web Design Developer Certified**, FreeCodeCamp – 2024
- **Scrum Master Certification**, Scrum Alliance – 2024

## **Soft Skills**

---

- Problem-solving and analytical thinking
- Strong communication and teamwork skills
- Time management and multitasking abilities
- Adaptable and quick learner

## **Languages**

---

- English (Fluent)
-
